**Re : Renovation in Maternity Unit during July – October 2012**

Please be informed that our Maternity unit will be renovated to better serve our pregnant mothers and to cope with the increasing demand.

The renovation work will take place from **July to October 2012**. During this period, the number of private rooms may be reduced and there may be some disturbing noise generated from the renovation work. Also, the Nursery may not be on the same floor of your accommodation.

The Hospital will take measures to minimize the disturbance, however, please take note of the above before your confirmation of the maternity placement with our Hospital. Payment of a deposit will mean your acceptance of all circumstances described.
